

SAFEGUARDING HEALTH. HEART. MIND.

At Prescot Primary, we have created an environment where everyone feels the security to learn and build trusting relationships. We ensure that voices are heard, opinions valued and hearts protected.

Every person within school has a role to play in providing early intervention and raising awareness to create a proactive and protected haven. We know our children very well and ALL understand that we are responsible for their safety. We seek best practice and training in order to update our safeguarding skills and also strive to secure the children's own understanding.

Listening well is important.

We listen so that we learn so that they can grow.
