

THE ROLE OF THE ENVIRONMENT

Our environment is a safe, warm, welcoming place for all - a place that puts the needs of our learners first.

An atmosphere of positivity fills our school; we promote the use of empowering language and strong learning behaviours which offer accessibility for all.

Innovative, flexible learning spaces allow us to offer stimulating learning experiences for all learners. Learning is not limited to classrooms or to the school building but is supported inside and out, practically and digitally.

Ultimately, our environment strives to reflect the centrality of the child.
