

SHARED LEADERSHIP

We believe that every person in our school community should have opportunities to lead and develop. We share a vision that builds confidence in an environment of trust; giving responsibility to learners of all ages to lead and support others, for the benefit of all.

Through this co-agency, we promote skills and attitudes that help to build capacity for the future. We all respect each other as learners and share challenges and successes within our team. Learners leading learners.

Collectively, we believe that we can make it happen.
