

# THE IMAGE OF THE CHILD

Every individual is empowered to learn and achieve within our safe and trusting environment. There can be no limits and our children are encouraged to believe that anything is possible. Every experience that we offer our children is a valued opportunity to learn with capacity and potential for them to surprise us. Curiosity and creativity are prized and our children are given responsibility for their own learning.

At Prescott Primary, we give our learners the strength and belief to reach for the stars.
