

Part B: Review of the previous academic year

Outcomes for disadvantaged pupils

Outline the performance of your disadvantaged pupils in the previous academic year and explain how it has been assessed. You should draw on:

- Data from the previous academic year's national assessments and qualifications, once published (including school attainment and progress measures)
- EBacc entry data for secondary schools
- Comparison to local and national averages (a note of caution can be added to signal that there are ongoing impacts of the COVID-19 pandemic, which affected schools, and pupils, differently) and outcomes achieved by your school's non-disadvantaged pupils
- Information from summative and formative assessments the school has undertaken.
- School data and observations used to assess wider issues impacting disadvantaged pupils' performance, including attendance, behaviour and wellbeing

You should state whether you are on target to achieve the outcomes of your strategy (as outlined in the Intended Outcomes section above) and outline your analysis of what aspects of your strategy are/are not working well.

If last year marked the end of a previous pupil premium strategy plan, you should set out your assessment of how successfully the intended outcomes of that plan were met.

External data points to DA pupils attaining at least in line with Other by the end of KS2 in all subjects.

KS1 data shows that DA pupils are below Other pupils. Covid Cohort - Reception in 21/22.

At phonics Y1 - Data shows that DA pupils are in line with LA Other. At Y2 they are above LA Other.

EYFS data show that DA pupils are above LA Other.

Pupil absence data shows that DA pupils' absence rate is significantly above Other pupils and is above LA Other. This is repeated in PA. No pupils are in SA.

Conclusion:

2023-24 is the final year of the current PP strategy plan.

Current data points to a "narrowing of the gap" in all measures apart from KS1 (last year of SATs) and attendance.

See Appendix.
